

### REMARKS

The specification is amended at page 1, before line 1, to include a statement of priority.

The specification is amended beginning at page 8, line 23 to correct a typographical error, and at page 12, lines 1-4 to correct the representation of a formula. In addition, the specification is amended beginning at page 24, line 5, by deleting several sentences.

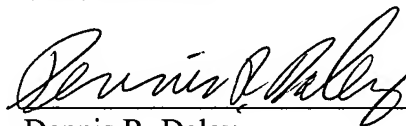

Original claims 1-38 are canceled in favor of new claims 39-79. It is pointed out that the claims refer to a first nonionic surfactant provided in an amount sufficient for providing starchy soil removal. This feature is supported by the specification at page 10, lines 18-22. In addition, the claims characterize the amount of the first nonionic and the second nonionic surfactant. These characterizations are supported by the specification at page 10, line 23 through page 11, line 10, and page 15, line 25 through page 16, line 2.

It is submitted that no new matter is introduced by this amendment and entry thereof is requested. Upon entry, claims 39-79 are active in this application.

Respectfully submitted,

MERCHANT & GOULD P.C.
